As a Microsoft software consumer and stockholder, I feel that the settlement is fair. To be honest, I have not followed every aspect of the case and must rely on the wisdom of our judicial system. I feel that a company should not have to spend as much time and money to fight court cases as Microsoft. American businesses and consumers appear to be jealous of business success. Microsoft was always the best game in town in my opinion, because its products fit together and are easy to use. Connectivity and easy-of-use appeals to me as a consumer.
